## **SALESMEN must teach customers how to successfully plant nursery stock:**

1. Call for stock on delivery day.
2. Soak 24 hours to 40 hours in water before planting.
3. Prune the tips off the roots.
4. Plant in roomy holes.
5. Tramp the ground firmly around the roots.
6. Do not put manure in the holes.
7. Water amply before and after planting.
8. Cut limbs back on all stock except Cut Leaf Birch and Evergreens.
9. Mulch trees heavily with grass or straw on top of the ground to keep the moisture in the soil.
10. Fruit, Mountain Ash, all Elm except American, Schwedleri & Norway Maple Trees must be wrapped with paper for winter protection.
11. Spray fruit trees each year.
12. Keep out weeds and cultivate ground.

# *Cashman Nurseries, Inc.*

## PRICE LIST

for Minnesota, North Dakota, South Dakota,  
Nebraska, Iowa, Wisconsin, Montana,  
Illinois and Michigan.

## TERMS

Minimum down payment with order, 25%. Balance to be paid on day of delivery. Order for Replacement must include 100% cash payment.

Promises of credit after day of delivery by note or open account are the responsibility of salesmen and same to be deducted from his Spring Settlement.

No orders cancelled or reduced after they are accepted (see terms on order). If customer lives in a town or city, street address must appear on order. If customer lives in country, rural route number should be written in. Orders must be signed by **both** customer and salesman. Both original and duplicate copy of order must correspond exactly. Send original (Blue) to Office.

Minimum order \$5.00. Add \$1.00 packing charges on orders under \$5.00.

No Transportation Charges if delivery made by our truck to a community delivery station, otherwise we ship freight or express C. O. D. We do not deliver to customer's premises.

Add 25% for stock personally selected by salesman or customer at Nursery.

Salesmen are charged back for difference when they make sales below list prices.

We do NOT plant. We make No Fall Deliveries. We Guarantee to deliver at the proper time for Spring planting, but promise no definite delivery date.

Our warranty is printed on back cover.

Customer agrees that the order is not subject to countermand unless request for same is accompanied by a draft for 50% of the purchase price (with credit for down payment) to cover cost of sale, reserving stock and liquidated damages. Customer then has option of cancelling obligation or having us hold order over until next year. Request must be received by March 1st.

*Plant New Heavy Bearing Apple Trees*

## APPLES & CRAB APPLES

	3-4'	4-5'	5-7'
1 to 5 .....	\$2.25	\$2.75	\$3.25 each
6 to 11 .....	2.00	2.50	3.00 each
12 or more .....	1.50	2.00	2.50 each

(LISTED IN ORDER OF RIPENING)

SUMMER VARIETIES	FALL VARIETIES	WINTER VARIETIES
- Anoka	- Beacon	- N. W. Greening
- Yellow	- Goodhue	- Golden Delicious
Transparent	- Wealthy	- Delicious
- Mantet	- Hibernial	- Bayfield
- Erickson	- Wolf River	- Malinda

Not available—Scotch Pine, Concolor Fir and Norway Spruce. Sell White Spruce instead of Norway.

# Important Information

## CASHMAN NURSERY PRODUCTS

1. Trees and plants that are perfect do not happen by chance. They result from painstaking, intelligent methods and persistent work, all of which takes money to bring about, particularly in the North where growth is not as rapid as in the South. To provide stock to withstand severe climatic conditions, it must be grown in the northern regions. Any tree or plant not adapted to our climate is very dear at any price, so don't be misled by cheap appealing catalog prices offering stock grown in tender climates.

2. A tree is no hardier than its root system. A tree may be a perfectly hardy variety, but unless it is grafted and grown on a hardy root stock, it will not prove satisfactory. CASHMAN TREES are grown on hardy Northern roots, and are much hardier than Southern grown understocks.

3. All hardy nursery stock is extremely scarce. The Cashman Nurseries' reputation for delivering high quality assures every salesman that his orders will be filled with the best in the sizes and varieties he sells. Our prices are in accord with the high quality of our guaranteed stock. Inferior grades of stock may be bought for less, but the successful salesman never experiences any difficulty in convincing his customers that cheap nursery stock is dear at any price.

## VARIETIES & GRADES

4. Our price list includes the largest assortment of the best, strong growing varieties that are sure to give satisfaction. Do not sell varieties not in the list; we reserve the right to cut out of order items that are not listed. Be sure to write in sizes on orders, otherwise the order may be filled with smaller sizes.

5. Sizes listed in Price List are height above roots when shipped. The size listed after each variety is that considered proper for stock suitable for transplanting. The sizes vary according to the habit of growth of the shrub, as some are dwarf and others are medium or large in habit of growth.

6. The Grades offered represent all trees measuring not less than the smallest number listed and up to, **but not including the largest number.** For example, 18-24 inch evergreens include all measuring 18 inches and up to 24 inches, but a two foot item is included in the 24-30 inch grade. Six to eight foot sizes in Shade trees are the best to transplant.

7. Items not sold by size are all No. 1 quality or better. All sizes and grading conforms to the Standards of the American Association of Nurserymen.

8. Our salesmen should remember that they represent the largest, northern, hardy nursery concern in America, annually serving 30,000 customers, who have learned that it pays to buy trees from a reliable grower who refuses to offer cheap or inferior stock to its customers. Inferior grades of stock are sold to non-grower "nurseries", jobbers, and catalogue houses that attract their business by offering cheap prices. Usually the customer pays substantial express charges. Our truck delivery system assures delivery within 24 hours from storage to you.

Remember, you get no more than you pay for, and experience teaches that in nursery stock, the Best is the Cheapest. You will be proud to sell our quality of stock.

9. A good salesman never has to do any planting. He does not have time for it. When he plants, he only makes wages; when he sells, he has a nice income.

10. Salesmen are cautioned not to make replacements on stock that has not been properly taken care of, properly pruned when set and neither mulched nor cultivated. Trees planted and allowed to shift for themselves have less than a 50% chance to grow. Customers must be told that trees cannot be left to lay around before planting and must be planted and cared for very carefully the first two years. After that they will take care of themselves with ordinary care.

## **CARE OF NURSERY STOCK**

11. A first class salesman always explains after the sale is made that the customer must come for his order on the first day of delivery; that the company cannot be responsible for any order not called for at that time.

12. Salesmen should advise every customer to soak his bundle in a tank of water or laundry tub so that the roots will be submerged for at least 24 hours, but not more than 40 hours before planting. (This does not apply to evergreens.) Then the stock will fill up with moisture and leaf out promptly. Also, to trim back the top, cutting off the majority of the limbs. Pruned trees start more readily and bear at least two years earlier than trees not pruned when set out. Pruning is important for all fruit and shade trees; Cut Leaf Birch, however, should not be pruned.

## **PREMIUMS FOR CASH PAYMENTS**

13. We allow one shrub from our premium list to be given for each advance payment of \$10.00 up to \$25.00 on a single order, and two shrubs for each \$25.00 payment above that. Any additional gift of stock will be charged to the salesman at the list price less commission.

## **PREMIUM LIST**

SPIREA, Van Houtte  
SPIREA, Froebel  
GRAPE VINES

HYDRANGEA, P. G.  
Tatarian Honeysuckle,  
Pink, Red or  
White Blossoms

# 4-WAY *Cashman* WARRANTY

We warrant all Nursery Stock sold by us to be (1.) State and Federal Inspected. (2.) True to name and quality represented. (3.) To arrive in live condition at the proper planting season. (4.) To replace stock which does not grow for one-half original purchase price the following season provided the original purchaser promptly pays for it, immediately and properly plants and cares for it in accordance with our directions. Request for replacement must be made by September 1 following planting, remittance and copy of original order must accompany replacement request. Liability in no event exceeds original purchase price.
